Style lives anywhere.

Do it your way with LEGOHaus.

LEGOHaus is a sophisticated, easy-to-build system that is tailored to your personal needs.

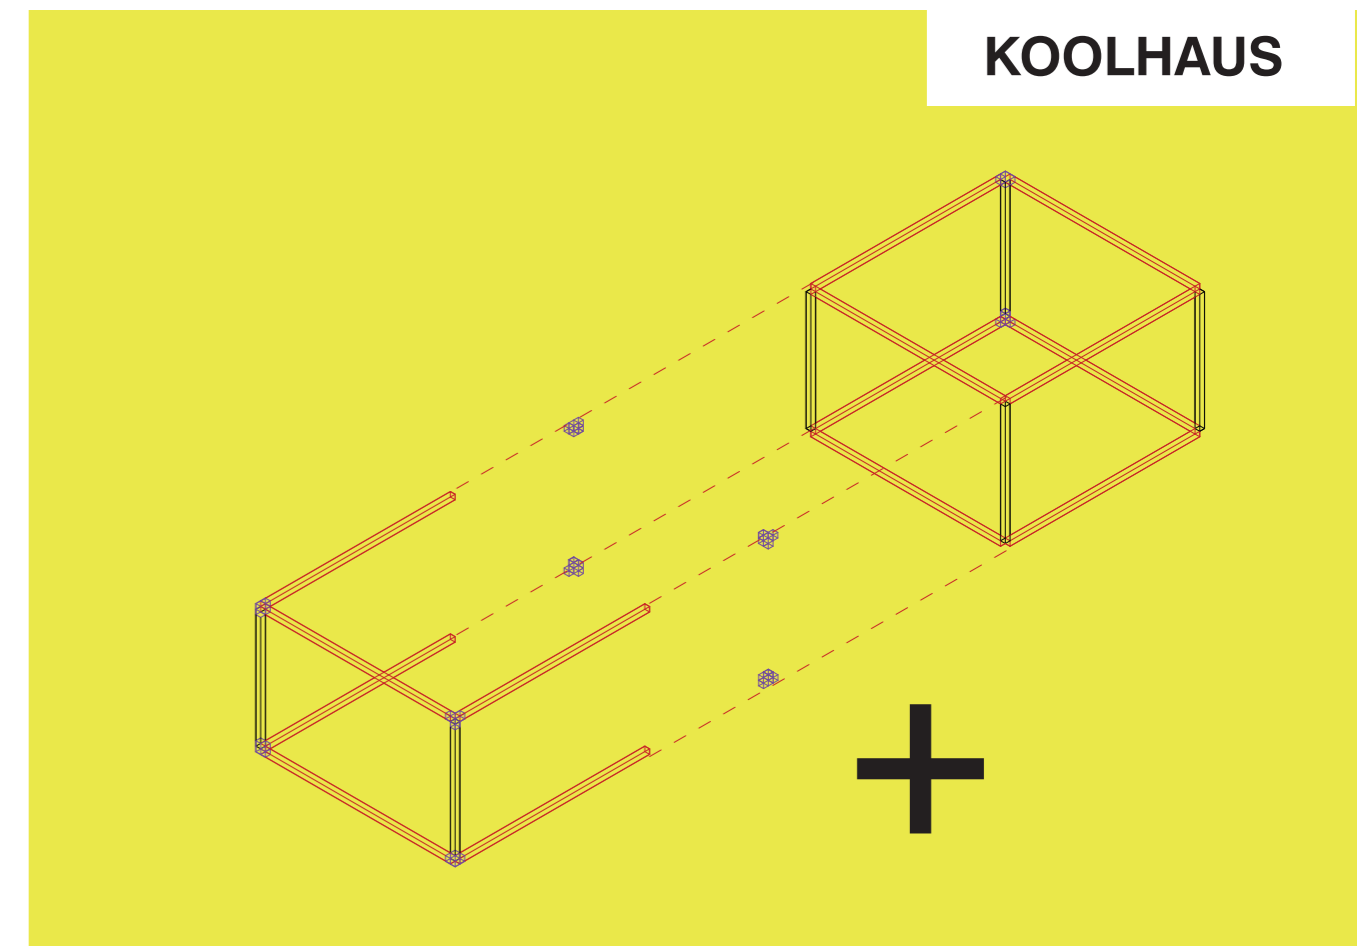

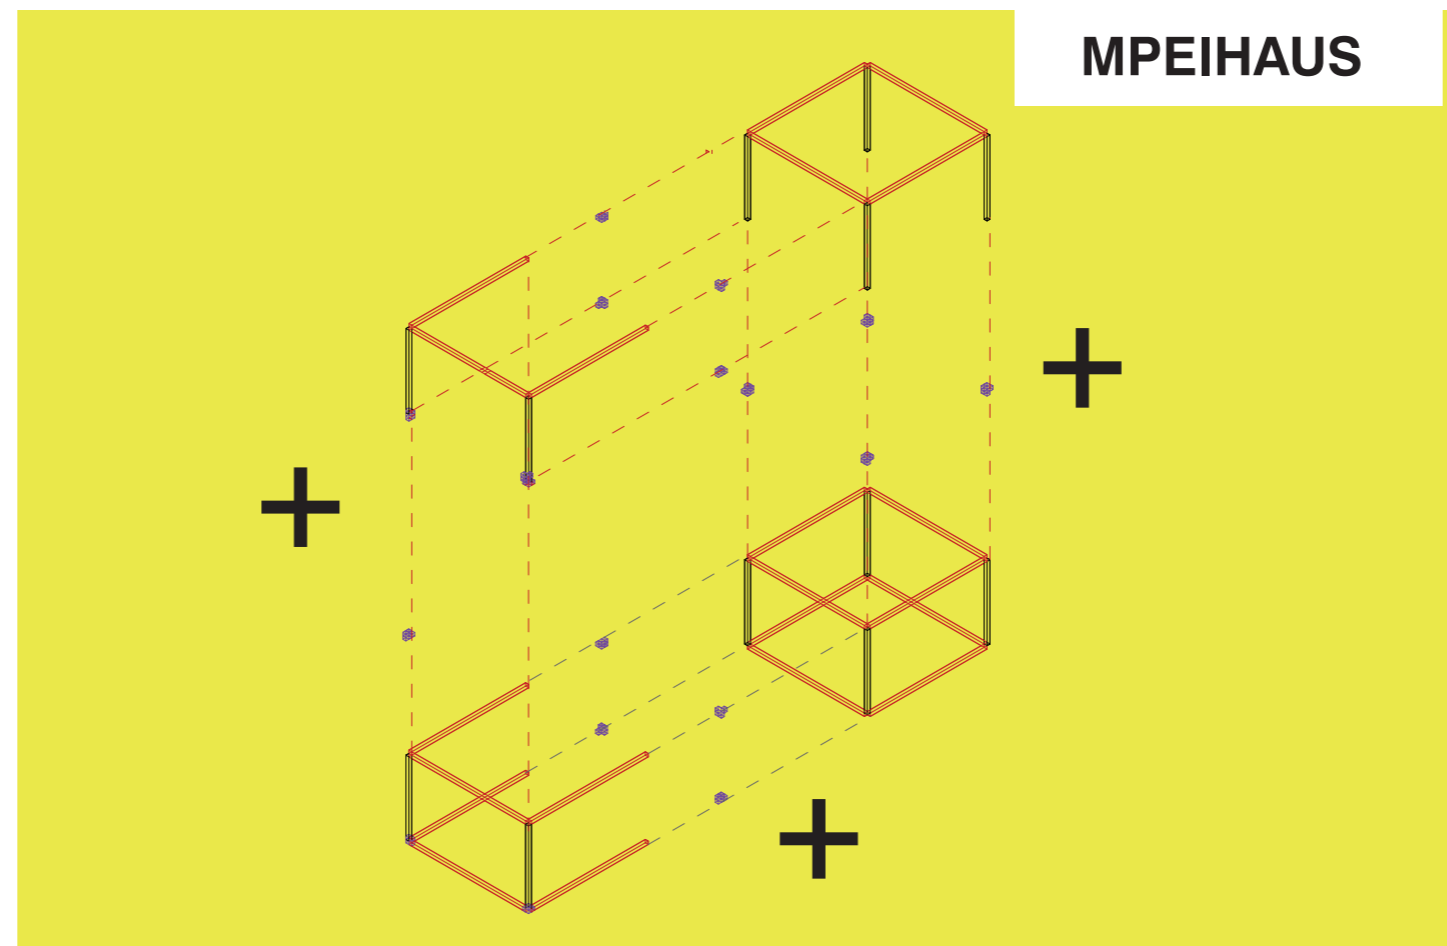

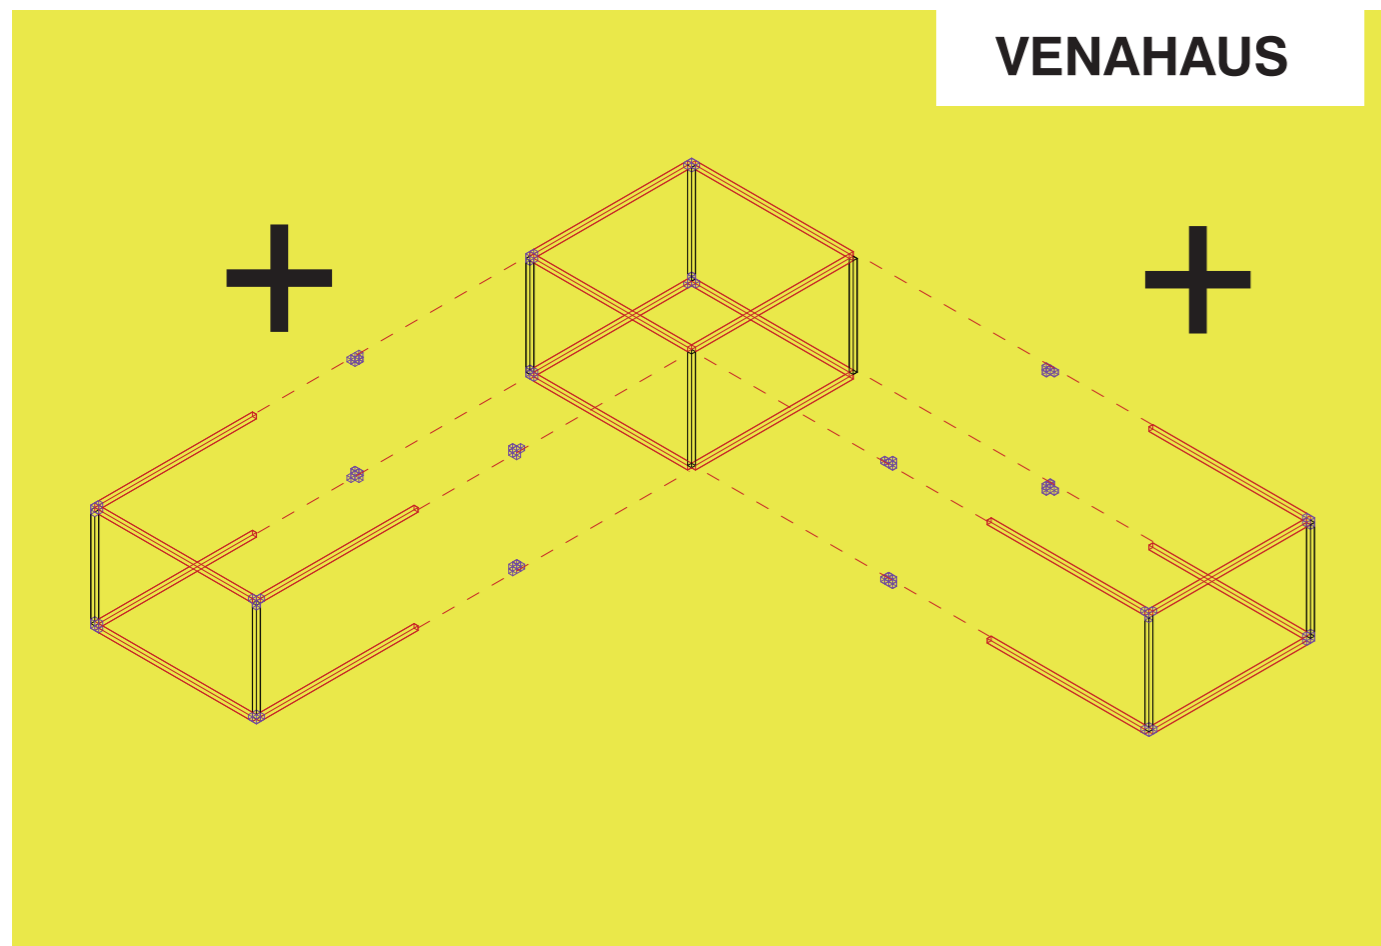

Originating from a single module structure, the LEGOHaus can be stacked and attached together easily through simply joinery, no screws or bolts needed. LEGOHaus is made to withstand any environment and climate so that you can always live in comfort. It is also paired with an add-on system that puts the creative freedom in your hands, allowing you to customize your home.

So do it your way. Keep your wallet happy.
Build a LEGOHaus.

Two-storey wall panel assembly

1 **2**

Single-storey window panel assembly

1 **2**

Single-storey door panel assembly

1

Corner wall panel connection (1)

2

Corner wall panel assembly (2)

+

Roof add-on

The bottom section of the instruction manual contains six detailed assembly diagrams. Each diagram is numbered 1 and 2, indicating the sequence of steps. The diagrams are: 1. Two-storey wall panel assembly: Shows two panels being joined together. 2. Single-storey window panel assembly: Shows a window panel being added to a wall. 3. Single-storey door panel assembly: Shows a door panel being added to a wall. 4. Corner wall panel connection (1): Shows two panels meeting at a corner. 5. Corner wall panel assembly (2): Shows a corner panel being added to a wall. 6. Roof add-on: Shows a roof structure being added to a building, enclosed in a dashed box.
